# FORMPARK

A new approach to parquet design

# FORMPARK FAMILY

Various patterns, from calm to lively,  
classic to avant-garde,  
emerge based on the way parquet  
is installed and the direction of light.

Smooth transitions from  
one pattern to another are also possible.

Thus, with Formpark,  
the design of your living space  
can be made even more personal.

# A STORY OF SUCCESS

In 2011, Zurich-based architect and designer Stephan Hürlemann created the award-winning concept for Bauwerk Parquet World showrooms. At the same time, he came up with the idea for the Formpark product, which he developed together with designer Simon Husslein.

## **Variety of shapes and individuality**

Formpark includes two plank formats, which can be put together to match countless different room atmospheres. The proportions were chosen such that the planks can be laid both in parallel and perpendicular to each other, opening up space for innumerable laying patterns. This is an exclusive parquet floor that represents a departure from the fashionable and trendy; thanks to its individuality and diversity of form, Formpark always creates a contemporary look whenever it is used.

## **Awards for Formpark**

Formpark has not just successfully won over the market. At the Iconic Awards 2014, the German Design Council awarded Formpark with a «Best of Best» in the «Product» category. At the German Design Award 2015, Formpark was awarded a «Special Mention» in the category of «Building and Energy» for its outstanding design quality. The two latest formats, Rombico and Quadrato, have also won awards for the innovative idea behind the products: The jury of the Iconic Awards awarded the two products the distinction of «Iconic Awards 2018: Innovative Architecture – Winner».

# REDUCTION

I make conscious choices in my life and surround myself with few selected objects that have a special meaning for me. Less is more, and everything has its place. My biggest luxury is space. I need space like I need air to breathe.

# PEACE AND QUIET

I am straightforward and consistent. My work completely absorbs me. My days are crammed full with appointments, I need to keep an overview, keep things under control. When I come home, I enjoy the peace and harmony – light colours, soft materials. I restore my form and read good books.

# CULTURE

My travels around the world have shaped my approach to the living environment, my sense of home and home country. Foreign cultures, people, music and art are part of myself and my life, just like high-quality materials and classic shapes that I love.

# FREEDOM

Family is the most important thing for us. We want our children to have the space to run around in, spread out, exhaust themselves, play without a care in the world. Chaos inevitably arises, we don't mind – nevertheless, we impose clear rules. Structure creates freedom, limits create space.

# CONTRAST

I am different – consciously and blissfully so. Classic styles side by side with latest trend. Whether music or interior design: I love contrast. New creative ideas and the search for the unusual bring change into my life.

# SEAMLESS TRANSITIONS

The Löwenbräu Black project is located right in the heart of Kreis 5 – a lively district of Zurich. Ceiling heights of 2.6 metres and generous floor plans make for an airy atmosphere and ample leeway for interior design. Perfect conditions for Formpark.

Three different Formpark floors were installed in a flat on the 16th floor of a tower block. The interaction between pattern and light effects bring out the best in each room. Thanks to the diversity of the Formpark boards, seamless transitions between different patterns work exceedingly well.

# FORMPARK MINI

With its enhanced format,  
Formpark opens up countless possibilities  
for creative installation ideas  
even in smaller spaces.

# SMALL FORMAT, BIG EFFECT

Together with Hürlemann AG, Bauwerk continues the success story of Formpark, now in a smaller format. Formpark Mini encourages architectural creativity and individual design on smaller surfaces – at a very attractive price. Formpark Mini and its big brother share the fascinating, unconventional look created by individual installation and lighting that the parquet adds to any room.

### Information

- › Formpark and Formpark Mini cannot be combined with each other.
- › Formpark Mini is based on the same proportions as Formpark.
- › Due to the incidence of light, vertically installed planks appear brighter than horizontal ones (see visualization on the right). This effect can be used specifically as a design element.

# REVIVAL OF HERRINGBONE

With the success of the classic Formpark formats, Bauwerk developed two additional products that reinterpret traditional laying patterns: Formpark Quadrato and Formpark Rombico.

The herringbone laying pattern is experiencing a big revival. Classic and elegant, it gives a room the ambiance of a city villa. In addition to herringbone, Formpark Quadrato and Formpark Rombico can be laid in many other patterns. This product is made with utmost precision, the latest machinery and in unique Bauwerk quality. The product's precise fit makes perfect laying possible.

## **Award for Formpark Quadrato and Formpark Rombico**

Formpark has been, and still is, a story of success. Both the latest formats, Formpark Quadrato and Formpark Rombico, have received awards for the originality of the ideas that these products are based on. The independent jury at Iconic Awards gave both the formats an 'Iconic Awards 2018: Innovative Architecture – Winner' prize.

# FORMPARK QUADRATO

Herringbone and other  
exciting laying patterns  
thanks to 1:5 format.

# FORMPARK ROMBICO

An exciting new interpretation  
of classic laying patterns  
thanks to the 45° angle of the planks.

# CLASSIC LAYING PATTERNS REINTERPRETED

The laying patterns impress with their simplicity and timelessness. At the same time, they make an individual statement in every room, and thus produce a unique room effect.

## FORMPARK QUADRATO

Formpark Quadrato can be laid in the following styles thanks to its 1:5 ratio:

## FORMPARK ROMBICO

Thanks to its 45° angle, Formpark Rombico is ideal for laying parquet in a French herringbone pattern. The dynamic zig-zag pattern shines also with other individual patterns in a clear formal language.

# COLOUR OVERVIEW

Formpark Quadrato and Formpark Rombico are made without bevel, for a spacious look. The brushed surface gives the floor even more character and depth, highlighting the interplay with light. Formpark Quadrato is available natural-oiled in Oak Crema with the B-Protect® surface treatment. All colours of Formpark Rombico are available in a brushed, natural-oiled version. The two formats cannot be combined.

Formpark Quadrato format:
