Dear Customer,

2022 was once again a year in which we all had to deal with a great many changes. Both the unpredictable and the long-term changes, such as the effects of climate change, challenge us to find new answers and solutions.

The conservation and management of resources is a central issue for BOEN and the Bauwerk Group, as is forward-looking procurement. Following the considerable price increases over the past few years, we have seen a slight easing of prices for oak raw materials, primarily the rustic gradings. We are pleased that we can now slightly lower our prices for wide planks.

To use our crucial resource of wood in as sparing a way as possible, we will be reducing the wood top layer to 2.7 mm in future – for wide planks in 181 mm width and selected gradings of 3-layer strip flooring in our mid-level segment.

As far as style is concerned, 2023 is once again all about the patterned floor. We are responding to the herringbone mega trend by expanding our range of Herringbone Click 138 mm floors. You can look forward to some attractive new colours.

We're really pleased about the fact that HDF, which we use for the middle layer of our 3-layer patterned floors, is now available again after a long period of time.

And as both we and our end customers love patterned floors so much, we will also be offering large format in this segment from summer 2023 – in the form of our new Herringbone Click in 209 mm width and 1045 mm length. Impressive, high-quality and more familiar to many as 'whalebone', this format really catches the eye. Both Herringbone Click versions are now available with our Live Pure surface treatment. This treatment will be also available for six rustic floors in our large format wide plank Chaletino range in future. Rustic floors are still on trend and will continue to be so in the coming years, which is why we are expanding the colours we offer for our rustic grading Espresso.

Finally, we would like to wish you all the best this year with the hope that you experience only wonderful changes,

BOEN team

2023 - What's new?

Herringbone Click extension

We are excited to announce the latest additions to our flooring collection, featuring updates to our popular "Herringbone Click" line. With its excellent reception in the market, we have expanded the collection this year to include the new and larger version - "Herringbone Click Castle". This new XL-format is guaranteed to create a luxurious and elegant, yet cozy ambiance in any room.

In addition, we have introduced new products to the previously offered version of "Herringbone Click." The assortment has been expanded to include "Live Pure" versions of the products, as well as a couple of new colors. With these new additions, we continue to offer high-quality flooring solutions that meet the latest trends in the industry.

Live Pure and rustic gradings in Chaletino

Our premium product line just got even better with the addition of Live Pure treated products. This premium surface treatment is the perfect match for our premium product line, providing a natural and protective layer that enhances the beauty of the wood and prolongs the life of your flooring. With Live Pure in Chaletino, you can enjoy the ultimate combination of luxury and natural feel.

In addition we offer two new attractive rustic floors oiled with Live Natural. For even more fascination.

New thickness for "Plank 181"

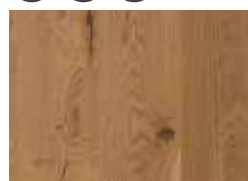

Introducing the new and improved "Plank 181" format. As a company, we understand the importance of environmental consciousness, and we are constantly striving to make sustainable choices. With this updated product assortment, we aim to provide high-quality flooring solutions that are not only beautiful but also saving resources and environmentally responsible.

In this year's price list, you will find the entire "Plank 181" assortment plus selected 3-strip floors in a reduced thickness of 13.2 mm.

Expanded assortment for our rustic floors

Rustic floors are popular not least because they accentuate a wide variety of interiors with their authentic look. That's why we now offer our Authentic Oak and Soft Brown Oak surface colors in the rustic Espresso grade, expanding our range in this area. Both floors are available in all three plank widths.

Matching skirting	10119003	5.20	10119003	5.20	10119003	5.20

Available as 3-strip. Available as plank 138. Available as plank 181* Available as Chalet/ Chaletino.

! Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish.

For Espresso products:

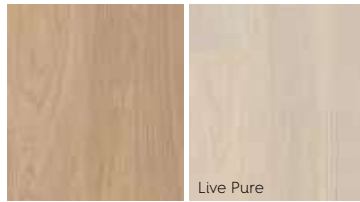

Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand.

Further information on our veneered skirtings: p.48.

Plank Castle 209 mm: 1 pack = 6 boards = 2.76 m² = 21.5 kg, 1 pallet = 50 packs = 138 m². We reserve the right to deliver 1 board with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

*Note: Plank 181 mm has a total thickness of 13.2 mm.

Available as 3-strip. Available as plank 181*. Available as Castle plank. Available as Chalet/ Chaletino.

! Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish.

For Espressivo products: Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand.

Further information on our veneered skirtings: p.48.

Plank 138 mm: 1 pack = 10 boards = 3.04 m² = 23.5 kg, 1 pallet = 42 packs = 127.68 m². We reserve the right to deliver 2 boards with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

*Note: Plank 181 mm has a total thickness of 13.2 mm.

Matching skirting	10119015 	5.90

◆ Further information on our skirtings made from parquet: p.46.  Information on our veneered skirtings: p.48.

Contents of a pack: 10 x 70 x 470 mm = 40 pieces right-hand strips and 40 pieces left-hand-strips. Each carton can contain two half divided strips.

1 pack = 2.63 m² = 15 kg. 1 pallet = 36 packs = 94.68 m².

Traffic

12,5 mm

- ▶ The particularly wear-resistant 1-strip parquet flooring, with a top layer of approx. 5.5 mm is ideal for high-traffic areas, such as shops, restaurants, public buildings, etc.
- ▶ Floor heating systems: very suitable.
- ▶ Performance classification (detailed info on page 56): 3.
- ▶ Fire protection classification: Cfl-s1.
- ▶ Tongue/ groove connection.

Dimension:

12.5 x 70 x 470 mm

Top layer: ca. 5.5 mm

Bottom layer: 7.0 mm spruce

Oak Nature, Traffic

 Information on our veneered skirtings: p.48.

Contents of a pack: 12,5 x 70 x 470 mm = 34 pieces right-hand-strips and 34 pieces left-hand-strips.

Each carton can contain two half divided strips. One carton = 2.24 m² = 16.5 kg. 1 pallet = 36 packs = 80.64 m². We can only deliver complete packages.

What's your venue?

YOUR VENUE.
YOUR FLOOR.

A durable and beautiful floor is the heart of any sports and recreational venue. In BOEN, we are dedicated to make hardwood floors that are made to match the specific needs and activities of your venue. Our floors are produced in Europe, and conform to the European standard EN14904.

Boflex

- ▶ The premium area-elastic floor system for high level performance. With unique progressive shock absorption, Boflex offers uniform performance for adult professionals as well as young athletes. The construction can withstand an almost unlimited weight load and is extremely stable.
- ▶ Floating installation on even sub-floor, e.g. screed.
- ▶ Top layer BOEN parquet flooring with double tongue and groove profile and bottom elastic strips.

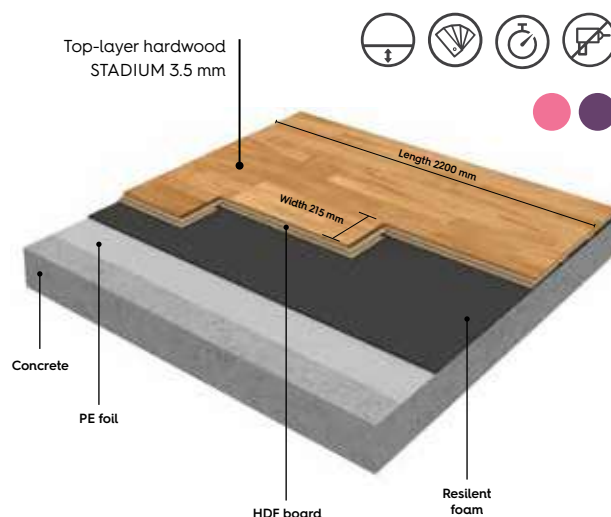

- ▶ Boflex Stadium Construction height: 28.0 mm
Dimension: 28 x 137 x 2200 mm
Top layer: ca. 3.5 mm
- ▶ Boflex Olympia Construction height: 30.0 mm
Dimension: 30 x 137 x 2200 mm
Top layer: ca. 5.5 mm

Actiflex

- ▶ When flexibility and comfort is key, and you need a quick turnaround when renovating, Actiflex is the right choice. It is easy to extend, pick-up and relocate.
- ▶ Actiflex is an area-elastic sports floor that guarantees flexibility and comfort.
- ▶ Can be installed on a flat, firm and self-supporting subfloor or an existing floor. Maximum size of an area - 600 m²
- ▶ Quick and easy installation with the 5G Click locking system.

- ▶ Actiflex Stadium Construction height: 29.0 mm
Dimension: 21 x 215 x 2200 mm
Top layer: ca. 3.5 mm

*BOEN performance classifications:

Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

Performance classification 1 = normal

Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

Performance classification 2 = medium

Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

Performance classification 3 = heavy

Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

2V bevel:

Bevel on longitudinal side of the board (total of 2 on one board).

4V bevel:

Bevel on all 4 sides of the board.

Surfaces

BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.

Live Matt lacquer

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish.

Protected by

Protected by Bona
Live Matt Lacquer is supplied by Bona.

Live Matt Plus

For us, protection and naturalness go hand in hand. And we're putting that to the test once again with the new BOEN Live Matt Plus. This attractive and protective surface treatment can now also be applied to brushed surfaces, giving the floor even greater impact, and intensifying its soft matt quality. BOEN Live Matt Plus also penetrates the smallest pores of the wood, meaning it is now even possible to seal planks with a bevel.

Live Natural oil

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor has extremely good protection properties against liquids.

Live Pure lacquer

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light – almost like untreated wood.

BOEN

gradings

Visit our virtual product finder to get a better impression of the gradings.

boen.com/products

Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.

CALM

Consistent growth; only small knots; standing or lying year rings.

LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood.

RUSTIC

Structure and vivid growth; larger knots; sapwood and heartwood; a rich spectrum of colours.

	CALM	LIVELY	RUSTIC
<i>Adagio, Select</i>			
<i>Andante, Nature</i>			
<i>Finale, Concerto, Contract, Basic</i>			
<i>Animoso, Country, Vivace, Rustic, Traditional</i>			
<i>Marcato, Baltic</i>			
<i>Vivo, Canyon</i>			
<i>Espressivo</i>			

Planks, Finesse and Maxi are graded according to EN13489, free class (Boen class).

Longstrip, Prestige and Traffic are graded according to ○, △ and □ after EN13489.

Wood is a product of nature – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, so small gaps between the putty and wood may appear.

Make sure you enjoy your hardwood floor for a long time to come

Our floor is made of natural materials, and therefore it is affected by climate and surroundings. We make sure your floor is ready to meet all the challenges that everyday life has to offer, but also the changing climatic conditions we have year round.

25

Year
Warranty

BOEN Quality

We produce parquet flooring with top level of quality. With a monitoring system that checks every aspect of production, we are so sure our production meets the highest standards of quality that we give a **25-year warranty**.

Please check our website at boen.com for complete information.

First Aid

First aid for your floor

For scratches or marks, special repair sets are available.

- More information can be found at boen.com

If the surface of your floor has lots of visible marks on it after a number of years, it can easily be sanded and re-sealed or oiled. Contact your hardwood floor installer.

Always a good choice: 3-layer parquet flooring

1 Top layer

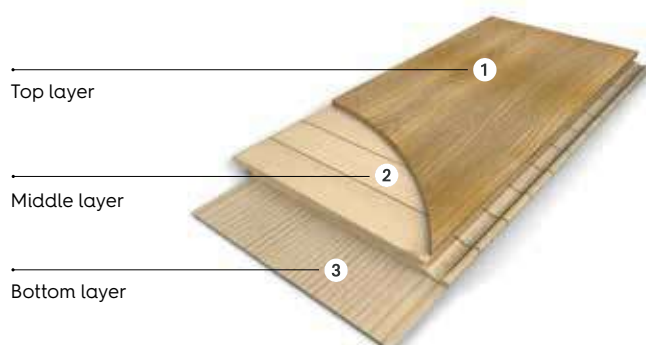

Environmentally friendly use of fine woods only for the top layer. Did you know that six 3-layer hardwood floors can be made from one solid wood floor?

2 Middle layer

Carefully selected strips made of spruce, with standing or half-standing year rings, offer high dimensional stability.

3 Bottom layer

The underlay of spruce veneer is manufactured from one piece and allows stable back pull.

5G

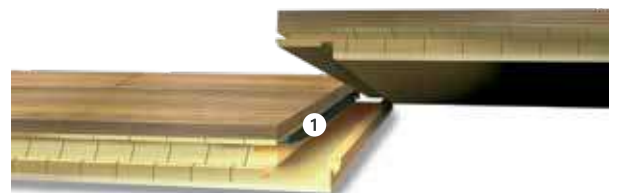

Click
System

5G Click locking system

Take advantage of the 5G Click - the rapid locking technology.

Best choice for floating installation.

- A quicker and easier way to install single boards without tools.
- Significantly reduces installation time.
- The clear "click" sound lets you know when installation is complete.
- Also suitable for full-surface gluing onto the sub-floor.

1. 5G Click: Every single board can be pressed down individually. Clear "click" sound confirms that the board is installed properly.

Environment

Hardwood flooring is a natural product. As a company that works with wood, BOEN has been entrusted with upholding an important legacy.

BOEN flooring is a product of natural materials. Respect for nature and for the requirement of environmental sustainability is reflected in our processing and management of raw materials. BOEN is constantly seeking methods for processing the raw materials in the most gentle and sustainable manner possible.

The raw materials processed at BOEN come from sustainable forests and other controlled sources. Beyond that, the BOEN factories have implemented a chain-of-custody system in accordance with the FSC™ standards. The Forest Stewardship Council™ is a well-known forest certification scheme.

BOEN's production methods are noted for their quality and excellent use of resources. The timber is quickly transported to the sawmill and cut, so that the drying process

can start as soon as possible, thereby avoiding discoloration. The wood is dried under monitored conditions. This allows us to guarantee the highest degree of stability for our floors.

Multi-layer hardwood flooring provides considerable savings in resources compared to solid hardwood flooring. The use of hardwood is limited to the wear layer. Three-fifths of our parquet is based on spruce and pine woods. Sawn and planed chips are by-products that occur naturally and are used in the factory's heating systems for the drying kilns, hot water supply and fuel pellets.

The German Blue Angel label has been awarded to BOEN, confirming that our manufacturing methods produce minimal amounts of waste gas and consequently contribute to a good interior climate.

Our Certificates

Across the globe, **the Forest Stewardship Council™, FSC™**, promotes an approach to forest management that is environmentally appropriate, socially beneficial and

economically viable. The companies within the BOEN Group have implemented a chain-of-custody system in accordance with the

standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. All of the products are available as FSC certified on request only. Our Group license code is FSC™ C009732, certificate number SGSCH-COC-001535. www.fsc.org, FSC – The mark of responsible forestry.

The eco-INSTITUT label for low-pollutant and low-emission products means safer environment for you

and your family.

For more information, please see: www.eco-institut.de

The Real Wood logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood has ecological benefits.

www.blauer-engel.de/uz176

Products with the **Der blaue Engel (Blue Angel)** seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.

ISO 14001 Certification The ISO certification 14001 stands for the highest safety regulations and exemplary environmental performance.

FloorScore® is a certification program established by the Resilient Floor Covering Institute (RFCI) for hard surface flooring and flooring adhesives products that meet strict indoor air quality (IAQ) requirements. Regular factory audits

are also required. Products bearing the FloorScore® label meet the indoor air quality emissions criteria of LEED, CHPS, the Green Guide for Health Care, and are recognized by a long list of other healthy building programs.

The **FDES** certification process involves evaluating the entire life cycle of a product. Updated information on FDES certification is available at: www.tecsom.com

Designed by onlyyouqj / Freepik

Wood is a natural product. Each tree has its own structure and individual colour combination. The colour of the floor may change when exposed to light.

As a guideline, dark wood will eventually achieve a more golden tone and light wood will become slightly darker.

SURFACE TREATMENT

Finished surface treated with lacquer or oil. For cleaning and maintenance, we recommend using BOEN Cleaning and Maintenance products that can be found in this pricelist.

AREA CALCULATION

When ordering, the following buffer to the required amount should be added: 3-strip and planks- about. 3-4%. Prestige approx. 4-5%.

DISCLAIMER

Flooring products supplied may differ in colour from the images included in this price list as the photos are to be used as a guide and print errors may occur. We reserve the right to change prices and products any time.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
